Task-1-Food-Menu-UI-UX-Design

Food menu app design using figma

Task 1 – Food app

Menu UI/UX Design

This repository contains Task 1 of the internship assignment.

The task focuses on designing a Food menu UI/UX that is visually appealing, easy to use, and well categorized to help customers quickly find dishes and encourage them to order more

Task Overview

A Food menu UI/UX project involves designing a digital menu that improves customer experience by combining clear layout, attractive visuals, and smooth navigation.

Key Design Principles

Visually Appealing:

The menu uses carefully selected colors, fonts, and images to create an attractive and readable interface.

Easy to Use:

The menu layout is simple and intuitive, allowing customers to browse items and make selections effortlessly.

Categorized:

Menu items are organized into clear and consistent categories, helping users quickly find the dishes they are looking for.
